

SPRUCE RV SERIES INLINE FANS SPECIFICATIONS

RV SERIES TECHNICAL SPECIFICATIONS

The Spruce RV Series fans are versatile and suitable for indoor and outdoor use. The durable, corrosion-resistant engineered thermoplastic fan housing makes these fans ideal for bathroom, living area and garage ventilation. Rated for both residential and commercial use, these remotely mounted fans, unlike ceiling or wall-mounted fans, can silently draw from multiple intake points, such as over a bathroom tub, sink and toilet.

Model	P/N	Duct	Watts	Typical CFM vs. Static Pressure						
				0"	0.2"	0.5"	0.75"	1.0"	1.25"	1.5"
RV100	28040	4"	35-44	113	100	71	50	18	--	--
RV125	28042	4"	48-68	115	110	98	87	72	57	43
RV150	28041	4"	48-66	150	140	119	98	76	50	24
RV200	28049	6"	49-66	184	170	144	123	87	47	1

Spruce RV fans are suitable for both residential and commercial use.
