

HUNTER - MILSTREAM - CEILING FAN ACCESSORIES GUIDE

Preparing the Remote

Once the power is turned on, **the remote must be paired within 60 seconds**. Pairing is only required once after initial installation.

Remove battery door. Change the dip switch settings if they match a previously installed remote transmitter. Install A23 or MN21 alkaline battery in the proper polarity and replace the battery door. To pair the remote, hold down the Set button for 5 seconds. Pairing is complete when LED button flashes twice.

(If a light kit is installed)

If a light kit is installed on your fan, choose the light bulb mode by moving the toggle switch. Move the switch towards the "D" for CFL bulbs and toward "ON" for standard bulbs. Replace the battery door.

To change the battery, remove the battery door. Remove battery and replace with A23 or MN21 alkaline battery. Please observe proper polarity placement.

To select fan speed press one of the numbers on the Fan Speed Dial. To calibrate the fan speed, run the fan on "6" for 90 seconds after each AC power reset. The LED light flashes to indicate a signal has been sent to the fan.

To reverse the air flow direction, press the Reverse button while fan is running. Press Light button to turn lights off/on. To dim the lights, press the light button for more than one second. Light will cycle from brightest to dimmest. Release the light button when desired brightness is achieved.

Installing the Remote Control Cradle

To install the transmitter cradle, hand-tighten the provided screws to mount the cradle to the wall.
