

# HUNTER - CRESTFIELD - CEILING FAN WIRING AND LIGHTING GUIDE

## Assembling the Light

### WARNING

#### FAN FALL HAZARD

Make sure all three screws are tight to secure the upper switch housing to the mounting plate.

#### Note:

Fan style may vary.

### WARNING

#### FAN FALL HAZARD

Make sure all three screws are tight to secure the lower switch housing to the upper switch housing.

## Installing the Bulbs and Glass

#### Hunter Pro Tip:

Want to install your fan without a light kit? Go to [www.HunterFan.com/FAQs](http://www.HunterFan.com/FAQs) and click "How do I install my fan without the light kit?"

#### Note:

Fan style may vary.

### WARNING

#### GLASS FALL HAZARD

To prevent SERIOUS INJURY or DEATH, make sure that glass is properly secured.

## Installing the Motor Housing

STEP 1

Raise the motor housing up over the motor and ceiling bracket. Turn the motor housing so the screw holes align and the indentation in the housing locks into place with the notch in the ceiling bracket. **The motor housing is not secured until the next step is complete. Do not leave unattended.**

STEP 2

With a Phillips head screwdriver, install the four motor housing screws found in the hardware bag. Tighten all four screws securely.

Note:

Fan style may vary.

## Installing the Blades:

Align the three blade holes with the three blade iron posts. Squeeze the blade and the blade iron post together.

Note:

Fan style may vary.

The flared tops of the blade iron posts will be fully visible above the blade when properly assembled.

Repeat x5

Lightly attach the blade arms to the motor with the blade arm screws, then securely tighten after both screws are attached.

Repeat x5

Note:

Fan style may vary.

STEP 2

## Wiring the Fan

### We know wiring is hard. Let's make it easier.

Follow these steps to get your fan wired quickly and safely. Follow the route below that best matches your wall switch setup. If you are unfamiliar with wiring or uncomfortable doing it yourself, please contact a qualified electrician.

**Have a single switch?**  
Follow these steps:

### Hunter Pro Tip:

#### Here is how to connect the wires:

Push the bare metal ends of the wires together and slide a wire nut over them. Then, twist the wire nut clockwise until tight. Give it a gentle pull to make sure none of the wires are loose.

### Hunter Pro Tip:

#### Have extra wiring?

Turn the wires upward and push them carefully back through the hanger bracket into the outlet box. Spread the wires apart, with the grounded wires on one side of the outlet box and the ungrounded wires on the other side of the outlet box. Make sure that the wires are still attached to the wire nuts.

**Have dual switches?**  
Follow these steps:
