To turn on fan, press a fan speed button. Speeds range from off (0) to high (3). Quickly press the Light button to turn the lights off and on. Hold the Light button to raise and dim the light level.

The remote transmitter should already be paired to the receiver and ready to use.

Note: If your need to pair your remote, turn fan power off and back on at the wall switch. Within 3 minutes, press and hold both the Fan Off button and the High button for 4 seconds to pair the remote. **To prevent faulty operation, please ensure all other ceiling fans within range are turned off at the wall switch while pairing.**

To switch the direction of air flow, move the reverse switch to the opposite position. You will need to remove the glass to do so.

Changing the bulbs - carefully remove the globe. Unscrew bulbs and replace with bulbs of the same wattage. Reinstall the globe.

When cleaning the fan, use soft brushes or cloths to prevent scratching. Cleaning products may damage the finishes.

Safe-Exit

The Safe-Exit Program gives you about thirty seconds of light when you turn the lights off to exit the room before the lights go out. To use Safe-Exit:

- Press the Fan Off button for at least three seconds to initiate the Safe-Exit Mode.
- The lights will flash for visual confirmation.
- The lights will stay on 50% brightness for 15 seconds and then begin to dim. After a total of 30 seconds, the lights will be completely off.
