

PET REFRESH- AIR CLEANER SPECIFICATION SHEET

The Pet ReFresh plug-in air purifier is great for smaller rooms up to 50 square feet in size that need targeted air purification.

FEATURES

- Compact size and portable
- Chemical free operation
- Low maintenance
- Very quiet operation
- Easy to use

BENEFITS

- Ion generator removes airborne contaminants and allergens
- Uses ActivePure® Technology to safely and effectively remove odor-causing bacteria, mold, and fungi in the air and on surfaces
- Portable
- Filter free

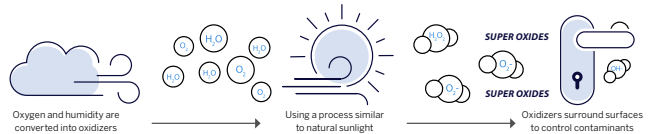

HOW DOES IT WORK

Pet ReFresh creates negatively charged ions to remove microscopic particles from the air that will reduce odors, allergens and harmful airborne pollutants. It also uses ActivePure® Technology to quickly freshen the air as it destroys airborne and surface contaminants and odors.

SO WHAT IS ACTIVEPURE® TECHNOLOGY?

ActivePure is based on technology originally developed by NASA. It is proven to reduce up to 99% of surface micro-organisms and dramatically reduce airborne contaminants + allergens in the air.

In 2017, ActivePure Technology was inducted into the Space Technology Hall of Fame by The Space Foundation.

GREAT FOR PEOPLE WHO

- Struggle with pet odors
- Want to freshen small spaces
- Want to clean the air in your home without using aerosols or sprays
- Suffer from allergies and need to reduce allergy-triggering particles from the air
