Dimensions are in inches

	<p>PD-T</p> <p>High capacity diffuser for T-bar installation.</p>
--	--

DESCRIPTION:

- The model PD-T is a high capacity diffuser for 24" x 24" T-bar installation. It is manufactured with aluminized steel to give the durability of aluminum with the strength of steel.
- This model is available in 6", 8", 10", 12", and 14" diameters. It provides a horizontal 360 degree air pattern with exceptional performance in all CFM ranges including variable air volume systems.
- A steel damper (model OBR) accessible through the face is available in all diameters.
- Standard finish is white.

- Options:**
- Finish
 - White
 - ANOD (Clear Anodized)
 - Medium Bronze
 - Black
 - Custom _____
 - Other
 - PD-S
 - PD-T-FL
